H-fusion

Rebuilding Classic Design.
Born from the tribute, mode.

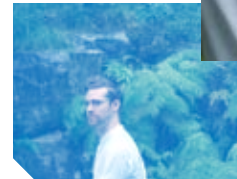

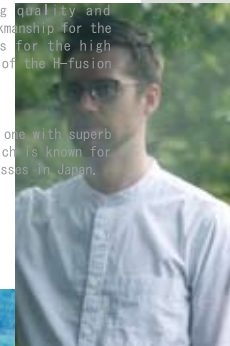

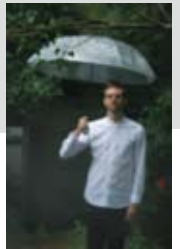

Hommage - A homage to the old-fashioned design. Based on the designs in the 1960s through 1980s, the H-fusion presents eye glasses created by blending two seemingly incompatible styles, "classic and yet very much fashionable".

High fashion - Co-existence with fashion. We have revived classical styles to the present by reframing them with a modern touch. The H-fusion is not a reflection of templates from the past, we are highly conscious of the latest fashion trend. The H-fusion is the eye glasses in sync with the fashion which undergoes rapid transfiguration.

High sense - Sophisticated sense. The H-fusion, because it derives from the fashions, images and atmosphere in the 1960s through 1980s, embodies various ideas of those times in its designs and styles.

High quality - Pursuit of quality. We are committed to pursuing quality and elegance. The uncompromising workmanship for the details has been our resources for the high quality and sophisticated forms of the H-fusion series.

Handi work - Craftsmanship. The H-fusion is hand-made one by one with superb craftsmanship in Sabae city, which is known for the production of quality eye glasses in Japan.

Hommage - A homage to the old-fashioned design. Based on the designs in the 1960s through 1980s, the H-fusion presents eye glasses created by blending two seemingly incompatible styles, "classic and yet very much fashionable".
