

H·fusion

HOMMAGE TO FORMER TIME DESIGN.

H·fusion HF-119 No.65 havana brown/gold

H·fusion

SMART | SIMPLE | BASIC

The H·fusion series is inspired from the 1950s to 80s designs. It shapes the two seemingly opposite styles of classic yet modern into one eyeglass.

HOMMAGE TO FORMER TIME DESIGN.

SUN PLATINUM METAL

The Sun Platinum series made of a special metal developed in Japan at the beginning of the Showa period. These Boston type glasses are a result of fine detail mixed with the current fashion scene.

HFL-608 demi

H·fusion
HF-903

An oversized Boston type sunglasses with a metal bridge. Function meets fashion with this type with the flip of the lenses.

Hommage to former time design

"H·fusion" is a concept eyewear which has got two seemingly inconsistent images of "classic but contemporary style" into a shape. It rises from 60s to 80s style.

- High fashion (Fusion with fashion) We have brought "Classic style" in eyewear design into life for this days and age by redesigning with actual sensitivity to the time. It is in a clear departure from so-called "retro look" style. It synchronizes exactly with recent kaleidoscopic changes in fashion trend.
- High sense (Polished sense) As the resource of "H·fusion" is 60s to 80s fashion style and image, we bet you would enjoy all kinds of ideological message in itself or appearance when you actually wear.
- High quality (Commitment to quality) We dwell upon quality and pursue its attractive appearance. The material is celluloid which is characterized by hard and low-skew as physical property. So the more you wear, the more good-fit you get. Plus, the celluloid gives birth to classic texture by sending out rays of artistic and distinctive gloss.
- Handi work (Manual make-up) "H·fusion" is produced painstakingly piece by piece by craftsmen in Sabae, Japanese eyewear production center. They give word to "Up-to date feeling" by high technical capability backed up with our SABAE's "long tradition".
